Dates: 23rd-26th of June, 2025

Conference website:

<https://www.ecostp2025.org>

Expected number of participants: 350

Conference Venue

Conference Venue: KTH Royal Institute of
Technology, Stockholm, Sweden

Venue website:

<https://www.kth.se/en>

The conference will take place at the
main campus of KTH Royal Institute of
Technology, situated in the city centre of
Stockholm, the capital of Sweden.

Presentation

We welcome you to the 7th IWA International Conference on eco-Technologies for Wastewater Treatment (ecoSTP) to be held from the 23rd-26th of June 2025 in Stockholm, Sweden. The conference follows the previous successful IWA ecoSTP conferences (Spain 2012, Italy 2014, UK 2016, Canada 2018, Italy 2021, Spain 2023).

ecoSTP 2025 aims to bring professionals from both academia and industry to discuss cutting-edge technologies in municipal and industrial wastewater treatment including water, energy, material recovery, sustainability, sewage epidemiology, and governmental decision mechanisms.

The 4-day conference program will include keynote presentations, plenary sessions with presentations of recent research results, poster pitch presentations, specialised courses, workshops including ongoing EU Europe projects, panel discussions, technical study visits and social programme. The conference

participants will be researchers, technology providers, consulting engineering firms, utilities and others.

The main topics covered by the conference:

- **Resource recovery for circular cities**
- **Centralized and decentralized ecotechnological treatment processes**
- **Water reuse**
- **Digitalization**
- **Sustainability, techno-economic and social impacts**

We would be delighted to host ecoSTP 2025 in Sweden where is one of the most technologically innovative countries in the world and it is a role model for sustainability and the circular city concept, which makes Sweden a great place to host such an organization. Stockholm, the Swedish capital, is a magical location for hosting this conference because it is known as the Venice of the North; the

city is surrounded by water and is built on 14 islands connected by 53 bridges. It is the city with some of the cleanest waters in the world and an innovation hub for many different projects related to water.

The conference will be organized by two established and pioneer research groups Environmental Biotechnology Research Group at KTH Royal Institute of Technology and The Future Energy Center Mälardalen University, Sweden.

We look forward to welcoming you to Stockholm in June 2025.

Sponsorship opportunities

PLATINUM (limited to 3 companies) SEK 100 000	GOLD (unlimited) SEK 50 000	SILVER (unlimited) SEK 25 000

You are invited to support the ecoSTP 2025 conference by sponsorship. A sponsorship will give your organisation visibility at the conference and the possibility for direct contact with the conference participants. The different sponsorship opportunities are described further in the table below. We are also open to other suggestions and adjustments to the below sponsorship conditions that could better meet your needs.

Sponsorship application, payment and cancellation rules

You apply for sponsorship by e-mail to the technical secretariate of the conference (ecostp2025@meetx.se) and will then receive an application form (Sponsorship Application Form) to fill in, sign and send in. The deadline for submitting applications is May 15, 2025.

By signing the Sponsorship Application Form the sponsor agrees to the commitment of the specified sponsorship conditions. An invoice will be issued for the full sponsorship fee.

In case of cancellation or reduction of sponsorship, the Technical Secretariat should be contacted at ecostp2025@meetx.se before May 15, 2025 and a cancellation penalty of 30% of the cost will be charged. Any cancellations after May 15 will be fully charged according to the signed Sponsorship Application Form.
